## SUSAN DE KRUIFF

photographer, event manager, teacher

Although a photo is a still, flat and non-moving image, my photographic work refers to a space and a time that extends beyond the visible. It raises questions about what preceded and what followed, both with regard to the surrounding space and with regard to time. The silent imagery of one photo seems to be part of a bigger story. The images are aesthetic, but the impact of the photo goes far beyond the aesthetics. DE KRUIFF ART PROJECTS From my company, I develop projects for many different clients, such as (educative) workshops, team-building, presentations, and art for interior as well as exterior spaces. I have a broad experience in the organization of festivals and exhibitions. And by collaborating with various artists and organizations, I aim to achieve the best results. I am also Internal Culture Coordinator (I.C.C.) as well as an art teacher.
