CATHARINA VAN VELDEN

Catharina van Velden: The topics insite out and the convertibiliy of the things on both material and intangible area, destruction and reconstruction lie at base of my work. The insite out of everyday objects is for me a fascinating search for hidden meanings and or discovering the hand of the maker. From a fascination for these topics and from social involvement, i look at the wolrd around me, and i want to comment on pussyfooted"
