JUDITH VAN DER MADE - MENSEN

keep on dancing is what the sheepman says

I observe & analyse, i lean towards the absurdistic on the edge of real, but then again also not unreal.... the in between world is where most of my work exists... I notice, sense, see all is movement and in constant motion, to catch the dynamics & the essence of this Can you reset as an entity? or can you merely create new neurological pathways to generate more options and choice possibilities?

sharing a selection of audiovisual

COMMISSIONS

- 2024 INNERSCAPE CLOUD Danslab Den Haag,
Netherlands Being the mentor of Emma's
project. Emma's research is about
expressing the inner world of the performer
in an authentic way. With the body as her
biggest source of inspiration and an
instinctive approach to movement she
creates an intimate connection with the
audience. After completing the first week of
a two-week research period with
scenographer Jolein Kop (@joleneheads) at
@makershuistilburg, where they explored
how a light landscape can become an
extension of this inner world. Creating
different atmospheres using light and
movement, inspired by triggers from the
outside world. How can the light become
like a living organism in the space? Now, she
will continue her research at CLOUD
Danslab focusing on the sound and
movement aspect of the work. How much
do external stimuli influence our inner
world? How do they transform and echo
inside us? What effect do they have on our
being? Emma aims to create a surreal world
where we can immerse ourselves in this
experience.

2022	Re - Boot, a daily practice Book Skogen Judith van der Made/ Patricia Vane Gothenburg, Sweden We often search for new things as they inspire us to create something fresh, instead it might be simpler by just looking into something we often do from various angles and with a different focus; to be curious. We often don't see our patterns and we are unaware of our blindspots ;' you don't know what you don't know.' This audio visual toolbox , Re-boot a daily practice, inspired by the Feldenkrais method, shares ideas that can playfully help you. The graphic work results from the audio lessons. It is a collaboration between Judith van der Made (artist and Feldenkrais practitioner) and Patricia Vane (artist and graphic designer). The work is part of the User-Friendly-Guides Series by LUDIC collective.
