JACQUELINE STUBENITSKY

colorful work with a hidden opportunity for a smile

I work in many different techniques and materials. Sculptures small and big, collages and drawings in ink. Paintings in oils and acrylic. Ceramics and works in rubber. My works are colorful and diverse, my subject is the human condition; man, animal and nature, in strange or familiar circumstances. By no means short of a little bit of black humor or the occasional touch of surrealism. At this moment I am painting my "Imaginary Gardens", Acrylic on paper, 50x65 cm. I hope to create places where the beholder would like to be.
