RICK HEKMAN

Photography and especially making photo books for me is a way to visualize a process: To retain and share experiences, memories and stories. In some of my projects I reuse pictures from my archive, or I work with photographs created by others to create a (new) concept. In my work I get inspired by reality and most of my autonomous projects are related to the theme privacy.

- 2004 Rotterdam diploma

EXHIBITIONS

- 2019 **Visitar la memoria** Zaragoza City Council Zaragoza, Spain This exhibition project presented by Rick Hekman and Alejandra Franch offers a visual place for the interpretation of memory. A meeting place where collective memory and image come together. Working with series of slides from various municipal archives and with local artists slides projects, we reflect on the way we look, understand and build our memories. Rescuing viewers of various formats, slide projectors and projection equipment, the show has been conceived site specific thinking of Zaragoza and those who inhabit it.
