FENNEKE WELTEVREDE

She calls a wondrous imaginative world in which form elements are stringing as in an artificial world. The art of Fenneke Weltevrede is about now and the past, people in reality with a strange detail or organism which can mutate.She calls a wondrous imaginative world in which form elements are stringing as in an artificial world,independent individuals which split again in parts as if they were amoebas.A surreal world in which human reason and organization are present.Her creatures move like in a cartoon in mostly weightless state by an artificial landscape.Her world corresponds to the manipulated space of the inter-active video.The dreamworld of Fenneke Weltevrede is performed in well-thought out colour nuances and a sensitive line and she comes to a result that is enterily her own.
