## FENNEKE WELTEVREDE

She calls a wondrous imaginative world in which form elements are stringing as in an artificial world. The art of Fenneke Weltevrede is about now and the past, people in reality with a strange detail or organism which can mutate. She calls a wondrous imaginative world in which form elements are stringing as in an artificial world, independent individuals which split again in parts as if they were amoebas. A surreal world in which human reason and organization are present. Her creatures move like in a cartoon in mostly weightless state by an artificial landscape. Her world corresponds to the manipulated space of the inter-active video. The dreamworld of Fenneke Weltevrede is performed in well-thought out colour nuances and a sensitive line and she comes to a result that is entirely her own.
