## ILOISA FORTES

My name is Iloisa Fortes, a.k.a sterke Iloisa and Jasmine. I'm born in Rotterdam and live and work now in The Hague. My work studio is at Make It Art Worthy (MIAW). My father comes from Cape Verde and my mother from Holland. I play with different identities and characters in performance, photo, video and 3D work which result in absurd, clichéd, obscure, minimalistic, drastic and humorous pieces. Experimental noise and music, costumes and masks are usually important tools in the works. Next to this I'm making drawings and paintings of famous artists. In 2024 I started working unplugged live as a mermaid with voice and guitar. Mermaid is on a deserted island and searching for her lost love. I'm working on publishing the songs online. They are on my website and on Soundcloud. Also I created 'warrior' who lives in the forest and goes on adventures. The video's are on Instagram and Tiktok.
