## BRIDGET CUEVAS

Bridget Cuevas (1990) is a linear acrylic abstract artist from Orange County, California. She received her B.A. in Art Practice from The University of California, Berkeley in 2016 and is at present in the Netherlands working towards an Arts and Culture (research) M.A at Leiden University. Concurrently, Bridget lives and paints in The Hague and is interested in pursuing aleatory compositions. Relevant incentives include control or the lack thereof, patience, and structural practices. Considering aesthetic application, domestic variants such as fabric patterns, tiles, and windows are apparent. In a like manner, color palettes are appropriated from rugs to advertisements and tape is exercised as to imitate restraint.
