MARIAN ZULT

words as transparant, refinement, weavings of lines and nerves, connection, transformation and perishableness find their place in my artworks

My work of art consists of work on canvas, 3 dimensional works, video and soundtracks. On canvas I use bark, paper fibers and plant remains in combination with pigments and acrylgels. Transparant weavings and lines, vulnerability and impermanence are striking elements in my work. Several years I'm working with kinetic artist Paul Walboom on animated pieces en stop motion film, soundtracks included about Sloebertown. Most of the inhabitants are made and recycled in a factory.
