## EMELLY VELASCO

In RED ASTRAL I explore the supremacy of the women “Sacred Feminine Energy – that is my surreal, astral real being.” No different from the universal principle of polariteit that explores a timeless dance of opposites and balance.

Emelly Velasco is a visual artist, designer and muse(model) whose practice bridges spirituality, design and metaphysics. Educated in Mexico, traveler in Europe and Dutch national based in the Netherlands, she explores the balance of feminine and masculine energies through abstract painting and mixed media within POLARITY as universal law. Her work combines folklore from diverse cultures, pre-Hispanic mysticism, Mayan-aztec traditions, Catholic symbolism, and contemporary minimalism. Using oil paint, acryl, textile, spray, gold leaf, and even her own blood, she creates visual rituals that celebrate femininity and the spirituality of polarity as universal law — shadow and light, sacred and profane, tenderness and strength. With exhibitions in Italy, France, Mexico, and the Netherlands, her art reflects her Central American roots and European refinement, inspired by Hilma Af Klimt, Kandinsky, Escher, Religious arts, Cy Twombly and Tamara de Lempika. Velasco’s creations are metaphysical expressions of ancestry and modern consciousness, revealing beauty as a portal to healing and transcendence. For more information (Kunstenaar id: 83075)

## PROJECTS

- 2025 Community Gallery Community Gallery Den Haag, Netherlands [@community.gallery](https://www.instagram.com/community.gallery) Our Voice's Mural is a creative project where people aged from 19 and above discover and strengthen their voices. Through writing, experimenting with spoken word, and exploring various art forms such as collage, painting, spoken word, and zine-making, participants engage with themes of identity, connection, climate, and resilience. In a safe and open environment, they learn to transform their thoughts and emotions into art, share experiences, and collaboratively build a collective artwork that reflects their perspectives and stories. - 2025 POLARITEIT— A dance of light and shadows Design Minimal Studio The Hague, Netherlands Solo exhibition POLARITEIT— A dance of light and shadows, curated by Natasha Dosen. Art Residency May-October 2025. In La Femmale, we embark on a profound journey into polarity and fairer systems, guided by the divine energies of both the feminine and the masculine. The evolution of feminine power is a testament to resilience and adaptability, represented in an achromatic universe. In this artistic narrative, the Mexican-Dutch artist reveals the wondrous growth and development of feminine energy, as well as the healing of masculine strength—a beautiful process of acceptance and empowerment of both aspects of being.
