JEREMI BIZIUK

"Jeremi Biziuk's work weaves ritual, tradition, and contemporary tools into a personal mythology. In his long-term artistic project, he grows an autonomous system of sound, fabric, and form – a synthetic creature shaped by exile, care, and reinvention. Rejecting language for its limitations and exclusivity, Jeremi turns to hand-sewn costumes and self-built analog synthesizers to create immersive, living environments. His sound-generating machines act like organisms: grown from open-source knowledge, movement, and echoes. They produce textures and rhythms that resist control, inviting surrender rather than structure. Rooted in Eastern European pagan heritage and DIY communities, Jeremi builds the sanctuary he couldn't find – through ritual, noise, and self-made tradition." -Klára Fantová

2024 Støring Willem Twee Kunstruimte Den Bosch, Netherlands During the new, one-day Støring Festival, which takes place in Willem Twee (Den Bosch), only artists are presented who have a personal story to tell in their songs and dare to be vulnerable. No empty messages and mindless sing-

alongs, but acts that touch you in your soul and brain. Støring is a festival with depth, where mental well-being is highlighted in an accessible way. And at the same time recognizable to many! Established and upcoming (inter)national acts such as Fresku, Pjotr, Meis, PEAKS! and Crae Wolf are on stage in Willem Twee. In addition, expect art, performance art, speakers and, above all, a very nice atmosphere. www.festivalinfo.nl/festival/33683/Storing-Festival/2024/

2024 Festivalis Druskomanija Lithuanian Composer's Union Vilnius, Lithuania On the occasion of the anniversary festival, Druskomanija invited to propose unique ideas, thus seeking to get acquainted with the ideas, desires, needs of the musicians' community and provide an opportunity to turn all this into reality. From a large number of Lithuanian and foreign artists, the most interesting and original works were selected. The evening's performances are united by interdisciplinarity, sound explorations and, most importantly, the plasticity and movement of the body, which plunges into the waltz of "Composers' Dances". www.druskomanija.lt/

2024 Animalcule Projektspace LOKAAL Utrecht, Netherlands Als een directe voortzetting van de laatste expositie genaamd ‘Newborns’, die plaatsvond in Trixie, Den Haag in maart 2023, zetten de vier kunstenaars (Siem Beets, Suzanne Plomp en Salves van der Gronde Jeremi Biziuk) hun onderzoek voort. Zoals de eerder genoemde organismen, groeit dit artistieke groepsproject langzaam door, zowel fysiek als conceptueel. Ze reizen fysiek naar plekken buiten Den Haag. Conceptueel groeien ze door externe prikkels in de vorm van de andere kunstenaars en onderwerpen van onderzoek, die deze nieuwe iteratie met zich meebrengt. As a direct continuation of the latest exhibition called 'Newborns', which took place in Trixie, The Hague in March 2023 the four artists (Siem Beets, Suzanne Plomp and Salves van der Gronde Jeremi Biziuk) continue their research. Like the previously mentioned organisms, this artistic group project is slowly growing, both physically and conceptually. They physically travel to places outside The Hague. Conceptually, they grow through external stimulus in the form of the other artists and subjects of research, which this new iteration brings. Immersing themselves in their own fictional world and aesthetics, artists develop their visual language and present it as new works, in which the context of their previous creations show a clear line of inspiration and growth within their practice.

2024 Shimmers///Threads Galleri Blunk Trondheim, Norway “Shimmers///Threads” is an ongoing process of Jeremi Biziuk’s artistic research and exploration. Through a series of performed soundscapes, the artist is exploring texture and weight through sound and space. To embody the heaviness of static and to move the stillness of concrete. While embodying a

woven textile covering their whole body, the performer focuses completely on the presented space and crafts it into a mould for their spontaneous work. Making use of various visual stimuli, the exhibition space transforms into an ever so slightly changing shape. The result is not concrete, but its qualities of resonance, shivering and shimmering are translated directly from the image, to the noise, and vice versa."

2024 Anonymous #1 Nul Zes Eindhoven, Netherlands At TAC we want to explore the essence of art, unbound from the artist's identity. But how? Can we separate the art from the artist? What does a name, your background and experiences have to do with your work? Everything. Nothing. We believe that art speaks for itself, this is why we organised the Anonymous group exhibition. This first edition is a pilot project which will lead to a recurring part of our yearly programme. www.tac.nu/programma/expo-anonymous-1/
